Artificial Intelligence Project Management

Each student must write a brief reflection file (Reflection_Week02_<YourName>.md) including:

1. What did I contribute this week?

I plan the project statement and project workflow with other members

2. What did I learn about collaboration or planning?

I learnt to stay in track and be more precise in making decisions.

3. What challenges did I face?

Learning new things in GitHub and using Miro

4. What will I focus on next week?

Try to explore more about GitHub and Miro.
